HEALTH AND SAFETY POLICY

Introduction

Broadhempston Parish Council recognises and accepts its responsibility for providing a safe and healthy environment for its members, staff, volunteers and for anyone affected by its activities.

The Council maintains this policy for the management of health and safety as its top priority and will do all that is reasonably practicable to ensure effective organisation and planning are established and maintained. The Council will also ensure that appropriate and effective audit and review mechanisms are used to inform the work of the Council, which undertakes to commit appropriate resources to manage health and safety.

Principles

Our statement of general policy, below, is based upon that required by virtue of the Health and Safety at Work Act 1974. Although the Council has a single employee, the principles of the Act and its underpinning regulations as later published are taken by the Council as a minimum requirement for the safe and effective management of the Council and its activities.
